### BADGE INSPECTION UPON ENTERING HEADQUARTERS BUILDING

On a daily basis beginning 1 August 1974, each person entering the Headquarters Building with a Staff, Visitor-No-Escort, or other picture-type badge will hand his badge to the Federal Protective Officer on duty for the latter's close inspection before gaining admittance. This requirement will be effective for entrance only. Prior to leaving the building, badge holders will simply show their badges to the Federal Protective Officer, as is the current practice.

### CABLE PREPARATION

1. Cable procedure requires that the originator include his extension number on the cable form, to facilitate inquiries concerning the subject matter of the message. Security regulations (paragraph 13a of HHB [REDACTED] and paragraph 38b of HHB [REDACTED]) prohibit discussion of classified information on the black line. Since all Agency cables are classified (not only because of their text but also because they identify Agency field installations), they may be discussed only on a red, green, or gray telephone. For this reason, effective immediately, all cables are to be prepared reflecting the originator's red, green, or gray line number so that any discussion of them will be over a secure line. STATINTL

2. If the originator has only a black line number in his immediate office, he is to cite the number of a red, green, or gray line in his component (indicating parenthetically the symbol of the office in which it is located) so that any inquiries to him regarding the cable will be made on a secure line.

3. Operating Officials will ensure that all officers under their jurisdiction who prepare cables are aware of and comply with the requirements of this notice.

VISITOR-NO-ESCORT BADGES

1. Stringent criteria have been established governing the issuance and use of Visitor-No-Escort (VNE) badges to ensure adequate security monitoring of the Visitor-No-Escort program. These criteria provide that

a. a visitor must be accredited by the Office of Security as having a Top Secret clearance granted by the CIA or another U.S. Government department or agency, and

b. the number of official visits to the Agency by a visitor must total at least 100 per year, or extraordinary protocol considerations must be involved, e.g., visits by USIB members.

2. Requests for exceptions to the visit frequency criterion will be justified in writing and forwarded to Chief, Clearance Division, Office of Security, Room 3-E-54 Headquarters Building. The Deputy Director or Head of Independent Office concerned must concur in such requests.

3. If the visit frequency criterion is not met by a VNE badge holder, the sponsoring office will be requested to retrieve the badge and return it to the Office of Security. Future visits to the Agency by such individuals would then be on an escorted basis.
